SECURE SCREEN

07 - 16 May 2025

Luxembourg, Esch-sur-Alzette

Project description

The "SecureScreen: Media Literacy and Cyber security for Participation" project addresses the ongoing critical need for continually boosting capacities among youth workers, educators, educational content creators, and bloggers recognizing that new challenges emerge continuously. This initiative is designed to empower these stakeholders through targeted training, promoting media literacy and cyber security skills, with a specific focus on combating online hate speech and bullying as a manifestation of active participation. All efforts are informed by a comprehensive needs analysis to align with the evolving needs of the target audience.

Objectives

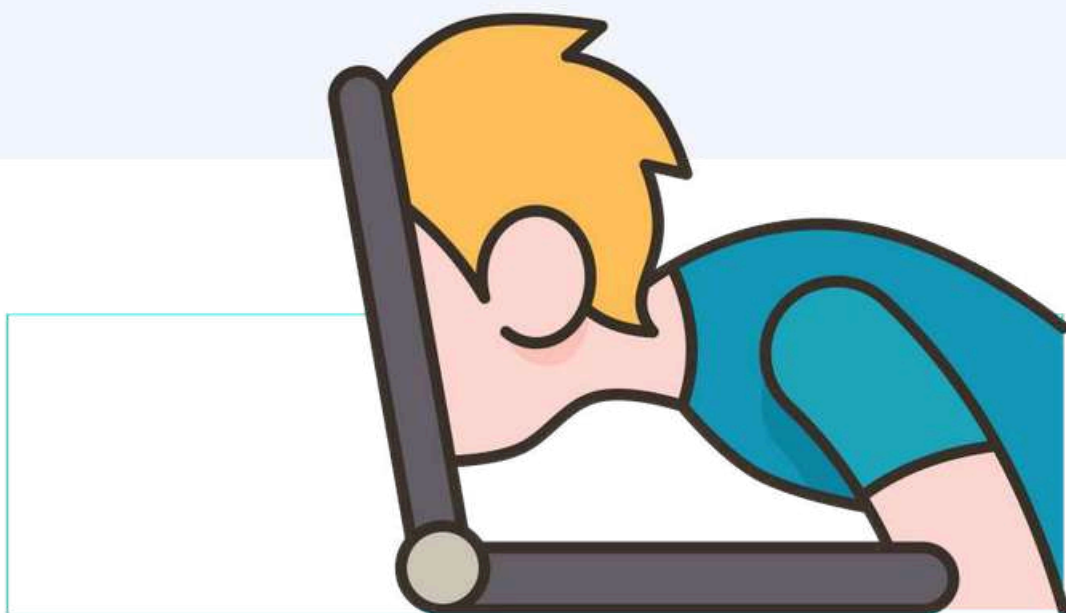

- To equip formal and non formal education professionals with effective tools and methods of media literacy and cyber security skills, with a specific focus on combating online hate speech and bullying as a manifestation of active participation. - To upgrade the mentoring and counseling skills

educational professionals, enabling them to support young people in establishing a safe and secure online environment for themselves and their peers.

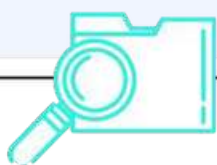

for To facilitate a supportive network professionals, encouraging the sharing of best practices, knowledge, and experiences in media literacy and cyber security.

-To establish key indicators (KPIs) to measure the impact of the project on the media literacy and cyber security awareness of both professionals and youth.

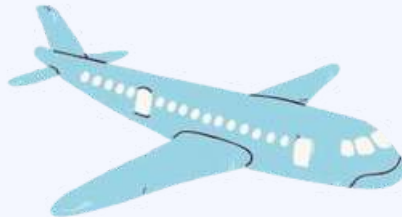

In today's dynamic digital landscape, too fast evolution of technology introduces an ever-growing urgency to upgrade the capacities of formal and non-formal educators navigating online. Recent studies reveal that over 90% of youth workers, educators, content creators, and bloggers acknowledge encountering new and diverse challenges in media literacy and cyber security annually (Triplett, W. J. (2023). Addressing Cyber security Challenges in Education. International Journal of STEM Education for Sustainability, <https://doi.org/10.52889/ijses.v3i1.132>). The investigation of the main keywords associated with digital skills, as highlighted by Tinmaz et al.'s systematic review on digital literacy, emphasizes the significance of information literacy, ICT, communication, collaboration, digital content creation, research, and decision-making skills as the most representative in the realm of digital competencies (Tinmaz et al., 2022, <https://doi.org/10.1186/s40561-022-00204-y>). Notably, dangers transcend conventional social media platforms such as Facebook, Instagram, and TikTok; emerging threats also lurk in less scrutinized platforms like Snapchat, highlighting the need for a comprehensive approach. It should be mentioned that dangers aren't confined to the usual suspects of well-known social media platforms like Facebook, Instagram, and TikTok; lesser- explored platforms such as Snapchat, Twitter, and Reddit also contain emerging threats. This emphasizes the necessity for a thorough and holistic approach to address nonstop changing online risks. Recognizing the mentioned needs the "SecureScreen: Media Literacy and Cyber security for Participation" project is strategically addressing these challenges. The project is planned to empower the potential stakeholders, with a specific focus on fact-checking, and combating the threats of online manipulations, hate speech, and bullying.

VENUE: ESCH-SUR-ALZETTE CITY, LUXEMBOURG

Esch-sur-Alzette is the heart of Southern Luxembourg, the so-called Minette region. Long before the Grand Duchy became a global player in the financial sector and the European Union institutions were established, the region was known throughout Europe for iron ore exploitation and processing. While the Minette's industrial heritage remains omnipresent, Esch and its modern Belval district have become popular for students and concertgoers. Several music venues, including the country's largest – the Rockhal – are found here. Grand Duchy of Luxembourg is located in the heart of Europe, bordered by Germany, France and Belgium. If you can drive 3 hours to be in Frankfurt, Brussels, and Paris.

The capital, Luxembourg City, is, together with Brussels and Strasbourg, one of the three official capitals of the European Union and the seat of the European Court of Justice, the highest juridical authority in the EU, many European institutions are based in Luxembourg as Luxembourg was a founding member of many European Institutions; and to know that the word (Schengen) that is used for the visas is one of the cities in Luxembourg where the treaty was signed. Luxembourg has 3 official languages: Luxembourgish, French and German.
Currency is Euro.

GREEN POLICY

Following FSNetwork's Green Policy, FSL aims to minimize the use of non-eco-friendly materials and reduce consumption overall. Accordingly, during our projects, and especially during breaks, we will not provide single-use cups. Please bring your own mug and use it responsibly.

The tap water in Luxembourg is safe to drink, so bringing your own water bottle will help minimize the use of bottled water.

Before buying your tickets, please first check green travel options, which means using transportation with minimal environmental impact. This can include shared cars or trains.

Thank you for your cooperation.
