WORKCAMPS IN PROGRESS AT THE CASTLE!

20/10 - 02/11

CONS/CULT 14vols 18-30

PROJECT

Come and discover a vibrant rural village while learning hands-on skills to enhance public spaces. The village of Arvieu, located in the heart of the Lévézou region and near Lake Pareloup, has 800 inhabitants and sits at an altitude of 800 meters. This experience will immerse you in the village ecosystem—recognized as a "Smart Village"—which includes over 25 associations and a third-place facility combining public and socio-cultural services, professional activities, and more broadly, the Social and Solidarity Economy. For several years, the municipality of Arvieu and its local ecosystem have been working to improve village life for residents and to attract and welcome newcomers. This experience allows you to live at the heart of a dynamic yet peaceful natural environment.

WORK

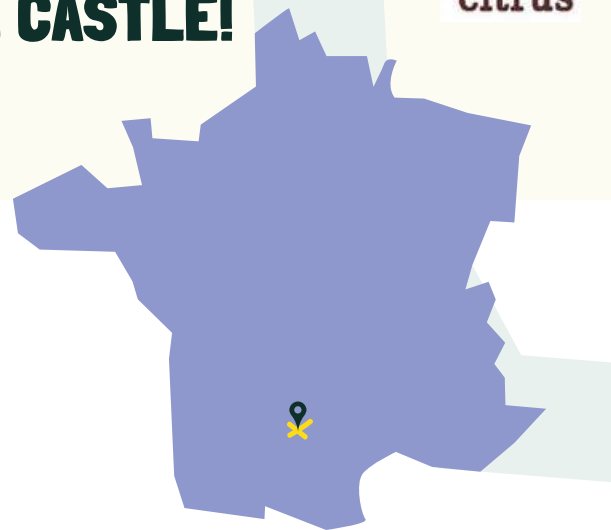

You will work each weekday morning for 4 hours under the guidance of a professional mason and local residents. You'll learn various techniques and participate in the rehabilitation of a public garden wall and the restoration of the church square. If you have extra time or want to mix things up, no worries—the Arvieu Castle site is an ongoing, beautiful worksite, and the team will be happy to have your help. You will also take part daily in maintaining the premises and preparing meals. Meal planning will be a collective effort, aiming for a balanced diet based on your preferences/dietary needs and local, seasonal products. Cooking is considered part of the worksite, just like the construction activities.

ACCOMMODATION AND FOOD

You'll be housed at Arvieu Castle, a beautiful building set within several wooded hectares, just a 5-minute walk from the village center. Sleeping arrangements are shared dormitory-style rooms with communal bathrooms on the same floor. Curtains are available in dorms for extra privacy. You will need to bring your own sleeping bag. Wi-Fi access is available, but the connection is open and very unstable. A washing machine is available for reasonable and scheduled use. On the castle's ground floor, you'll find a large, friendly dining room next to a kitchen that will be used to prepare your daily meals. Meals will be healthy, local, and primarily vegetarian. Two meat-based meals will be offered each week. You'll also be responsible for cleaning and maintaining your living spaces daily.

LEISURE ACTIVITIES

That said, there will be free time in the afternoons for discovering the local area, exploring cultural heritage, and joining scheduled activities or local events (cinema/shows, creative workshops at the shared Fablab Obrador, farm visits, intergenerational meet-ups, etc.). You'll also have the opportunity to visit Rodez, including its cathedral, the Soulagues Museum, and more. There are many hiking trails, such as those around Lake Pareloup, for sporty exploration of the region. You can even go geocaching right in Arvieu. The Insect City museum, located about 30 km away, might also pique your interest.

Location: Arvieu is a rural village in Aveyron, nestled in the hilly and green Lévézou region.

Closest train station: Rodez Station or train or Luc-la-Primaube Station

Closest airports: Toulouse-Blagnac (31000)

Time and directions to the meeting point: We will pick you up starting at 2 PM from one of the meeting points (Rodez/Toulouse train station or airport). We'll contact you to confirm your arrival time and location
