About the project

This project is designed to **upskill** and **reskill** young people, helping them become better **prepared for the job market**. By focusing on the top 10 skills employers are looking for, we are aiming to create a generation of confident, skilled, and job-ready youth.

Our goal is to provide young people with the tools they need to increase their **employability** and **take charge of their future**.

Through an innovative blend of online learning, hands-on workshops, and international collaboration, we are helping youth get the skills they need to succeed — whether they are looking to join the workforce, start their own business, or work remotely.

Why We Are Doing This:

In today's rapidly changing world, young people need to be equipped with **practical, future-proof skills** that can be applied to a wide range of jobs.

By focusing on resilience, creativity, and problem-solving, among others, we aim to give youth the tools to thrive in both local and international workspaces. This project is about creating new opportunities for personal growth, global learning, and skills development that are in high demand.

About Sadova

Sadova is a picturesque commune in Suceava County, located in the historical region of Bukovina, in north-eastern Romania. Nestled at the foothills of the Carpathian Mountains, Sadova is surrounded by rolling hills, dense forests, and clear mountain streams, making it an ideal destination for those seeking both nature and tradition. The settlement is known for its authentic rural charm and well-preserved customs, offering visitors a glimpse into the cultural richness of Bukovina. Traditional wooden houses, local crafts, and folklore festivals keep alive the spirit of the region. Agriculture and animal husbandry remain the main occupations of the inhabitants, but tourism is increasingly important due to the area's natural beauty. Sadova is an excellent starting point for exploring the nearby natural and cultural attractions of Bukovina. The commune lies on the route to the famous painted monasteries included on the UNESCO World Heritage list (such as Moldovița, Sucevița, and Voroneț), while also being close to Rarău and Giumalău mountains, well-known for hiking, winter sports, and breathtaking landscapes.

With its scenic landscapes, vibrant traditions, and proximity to both nature and history, Sadova represents the authentic spirit of Bukovina and warmly welcomes visitors to experience its unique blend of heritage and natural beauty.
