

STRATONI PRESENTATION

VOLUNTEERS ESC

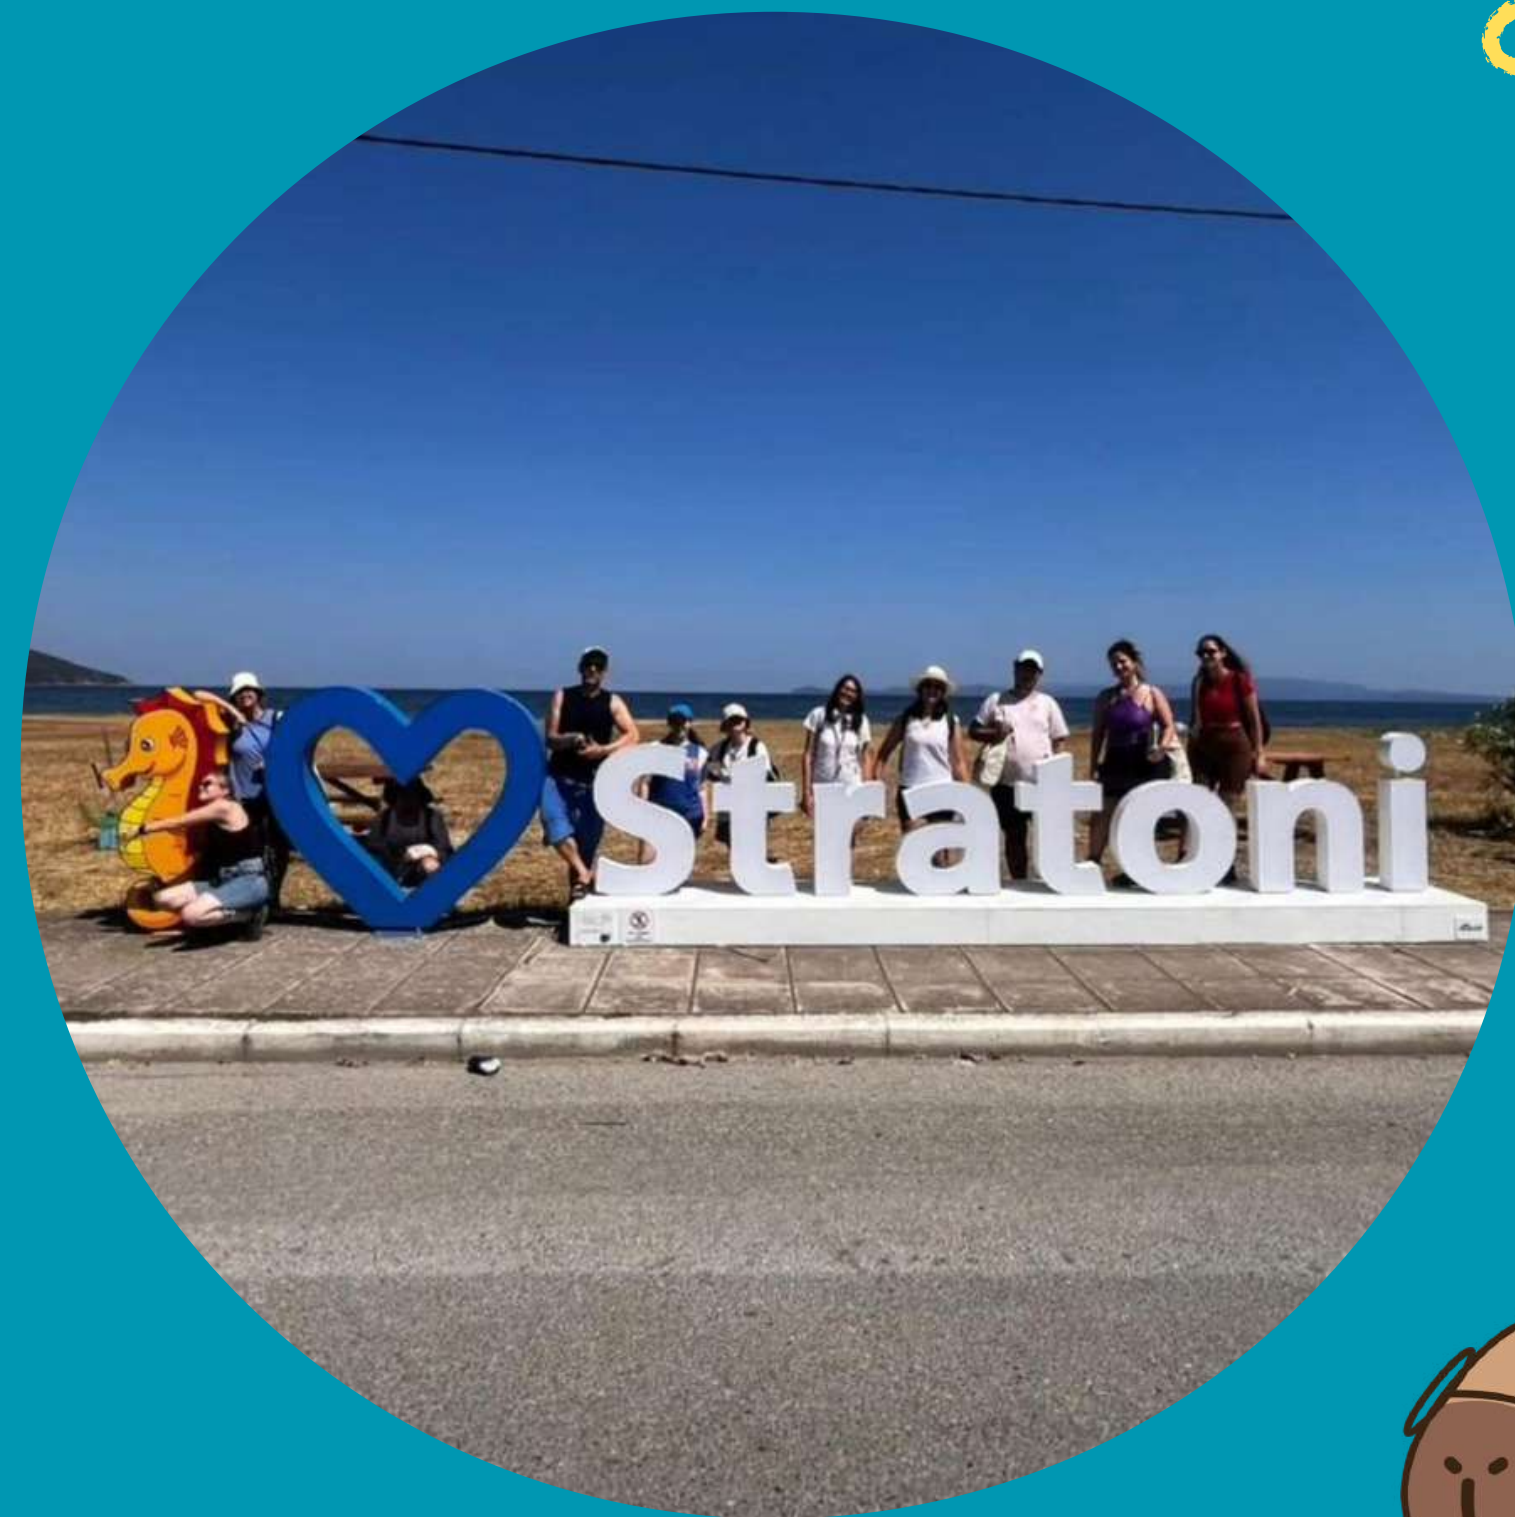

INTRODUCTION

In the beautiful Stratoni of Halkidiki, the village of Hippocampus, a space suitable for hosting educational programs, workcamps and various other events was created.

The Municipality of Aristotle of Halkidiki, the birthplace of the ancient Greek philosopher from which the Municipality takes its name, is an area with a huge historical and cultural heritage and ideal destination to visit. In this area, you may also find the village of Stratoni.

OUR PERSONAL HISTORY IN STRATONI

In Stratoni, we started to rebuild a former building of the Hellenic Manpower Employment Organization and we transformed it into a multi-cultural venue for hosting diverse events and gatherings. With the support of the volunteers from ESC projects. Also we created the Hippocampus Park by the seaside, offering visitors insights into the history of Stratoni and the wider municipality.

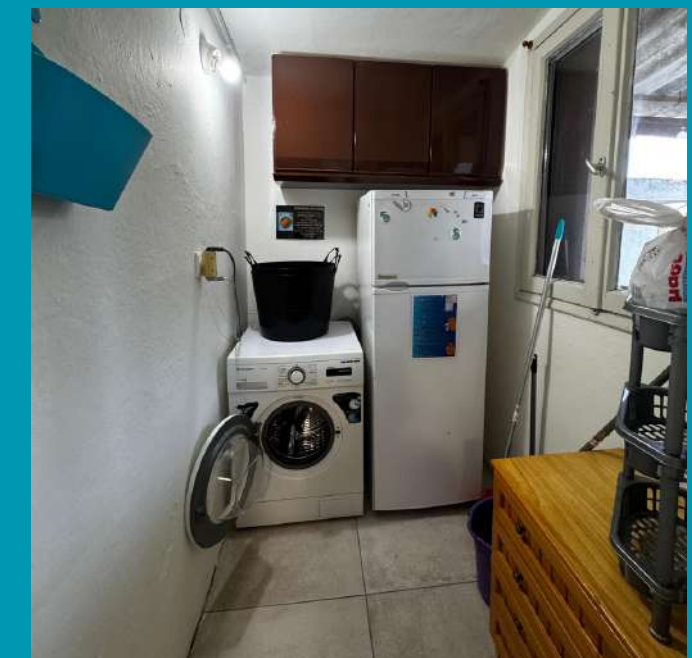

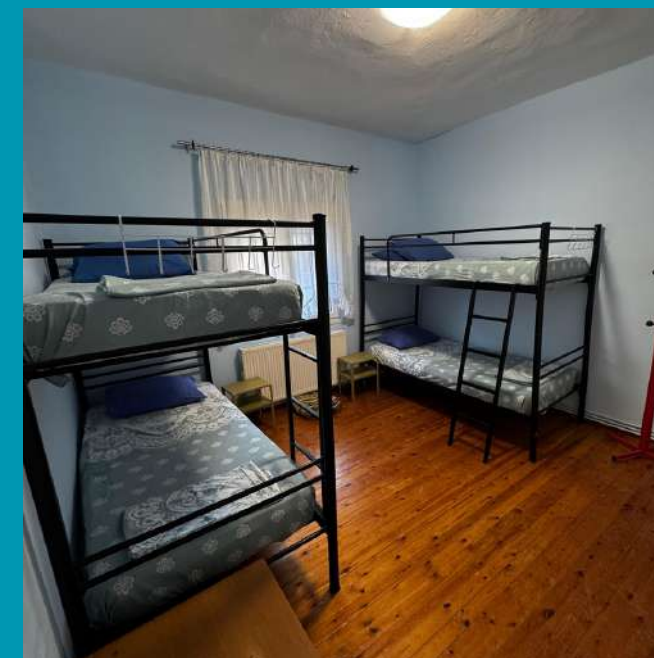

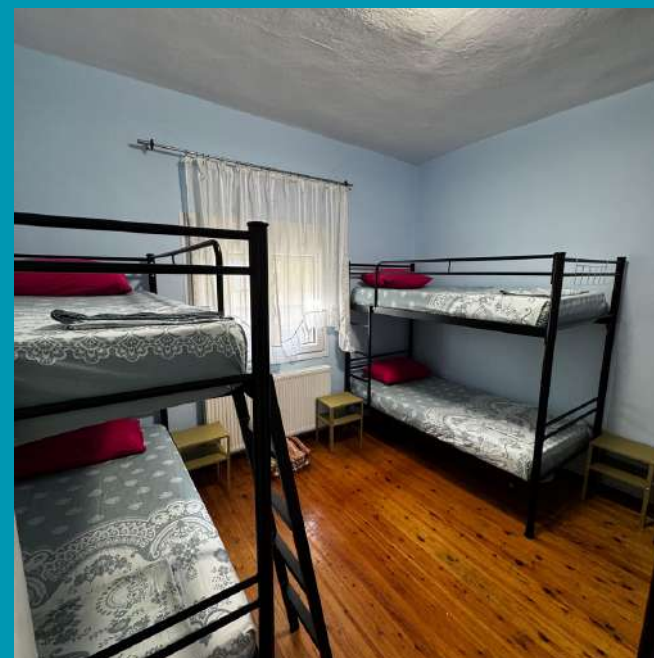

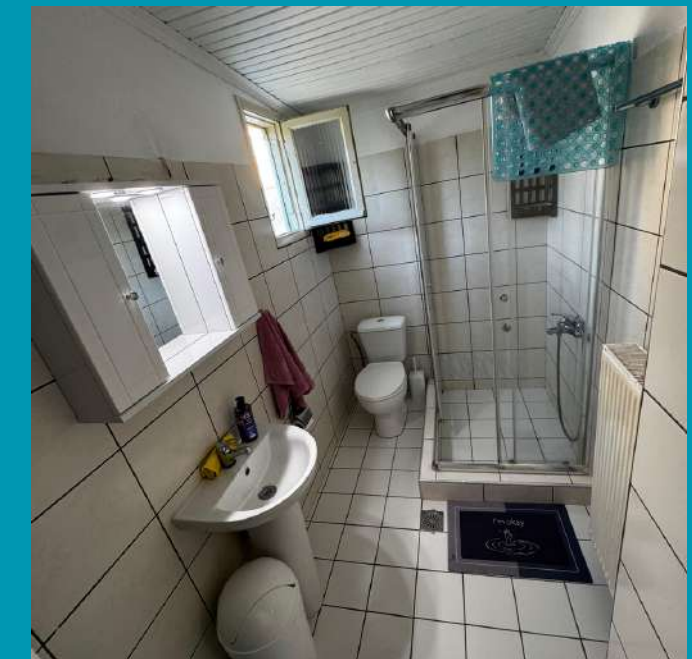

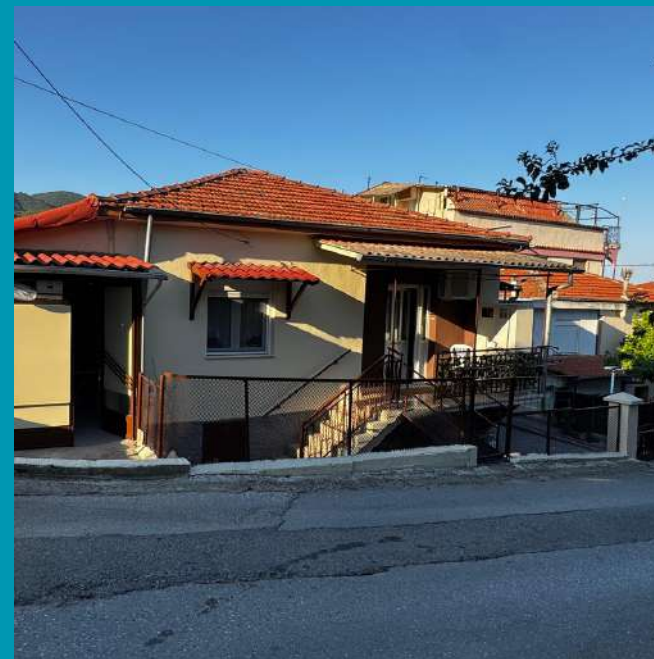

The park highlights the unique presence of a seahorse colony discovered in 2007, one of the few in Europe, which has since been closely monitored by scientists.

ACCOMMODATION

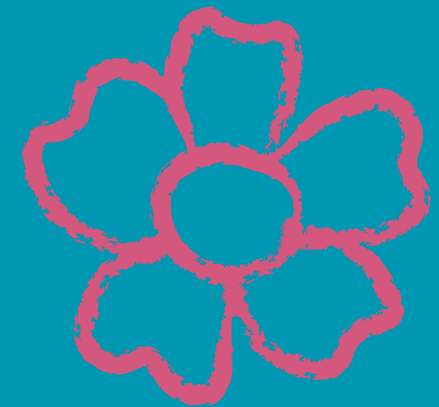

- Newly renovated ESC
- Volunteers' Home
- 2 rooms
- 1 Living room
- 1 Fully equipped kitchen
- 1 Shared bathroom
- 1 Laundry room
- 1 Front and back yard

CONCLUSION

✨ Together, we have the chance to leave a real mark in Stratoni. Whether it's opening doors to knowledge, protecting animals, welcoming visitors, caring for nature, celebrating culture, or sharing stories, every action creates joy, connection, and pride in our community.

💪 Your energy and creativity will transform small efforts into big changes. Let's make Stratoni brighter, kinder, and more inspiring, one step, one smile, one project at a time.
