

Voices in Action

Empowering Youth for Civic Impact

19 - 26 November 2025
RENDE, ITALY

**A Youth Exchange to
Empower Voices,
Inspire Action, and
Shape Communities**

WHAT

Voices in Action is built on the belief that young people are not only the future, but also the present of our societies. They have the potential to become active agents of change in their local communities, while international experiences can inspire them to connect local action with a global vision — creating a true “**glocal**” impact.

Today, many young people face marginalization and feel excluded from decision-making and community life. Too often, their voices are not fully heard and their ideas risk being overlooked. This project creates a space where their perspectives matter, their creativity can flourish, and their energy can be transformed into concrete initiatives for positive change.

ABOUT US

ENTROPIA APS plays a central role in the intercultural dynamics of its area, effectively encouraging spontaneous aggregation and socialization among peers, across linguistic, cultural and other barriers. Its inclusive practices are wide-ranging and consistently promote the cultural and social acceptance of individuals and groups from diverse backgrounds, respecting and treating them equally. These efforts are always grounded in the promotion of European values.

We have implemented several projects under the Erasmus+ and European Solidarity Corps (ESC) programs, including workshops and labs designed to engage young people and support the development of their skills and competencies in informal settings that foster both personal and professional growth. Our activities also aim to encourage exploration and reinterpretation of the local area through an international lens.
