Improves clarity, grammar, and tone in writing. Adapts materials for diverse literacy levels.

Link: <https://www.deepl.com/write>

7. Notion AI

Built-in AI in Notion to summarise, brainstorm, and organise workshop or project content.

Link: <https://www.notion.so/product/ai>

8. GeneratePrompt.ai

Helps craft effective prompts for generative AI tools. Ideal for creative youth projects.

Link: <https://generateprompt.ai>

9. Google Workspace AI

Smart suggestions in Docs, Sheets, and Slides for faster content creation and collaboration.

Link: <https://workspace.google.com>

10. Gamma.app

Turns documents into presentations or web pages with AI-powered design.

Link: <https://gamma.app>

2. Coding & Developer AI

11. GitHub Copilot

AI pair programmer suggesting code and functions, supporting youth coding workshops.

Link: <https://github.com/features/copilot>

Co-funded by
the European Union

Youth for
Equality

12. Tabnine

AI code completion for multiple languages to speed up programming learning.

Link: <https://www.tabnine.com>

13. Phind

Search and coding assistant with web results for technical queries.

Link: <https://www.phind.com>

14. Replit Ghostwriter

AI coding partner in Replit IDE for instant feedback and assistance.

Link: <https://replit.com/site/ghostwriter>

15. Teachable Machine

Google tool to train simple ML models without coding for accessible AI demos.

Link: <https://teachablemachine.withgoogle.com>

3. Generative AI Images

16. DALL·E 2

Generates realistic images from text descriptions for creative workshops.

Link: <https://openai.com/dall-e-2>

17. Midjourney

Text-to-image AI for high-quality artistic visuals.

Link: <https://www.midjourney.com>

18. Stable Diffusion

Open-source image generation model for customized creative outputs.

Link: <https://stability.ai/stable-diffusion>

19. Canva Magic Studio

Co-funded by
the European Union

Youth for
Equality

AI design tools in Canva for graphics, layouts, and infographics.

Link: <https://www.canva.com>

20. Artbreeder

Collaborative AI art creation and image mixing platform.

Link: <https://www.artbreeder.com>

21. NightCafe

Generates AI art in multiple styles from text prompts.

Link: <https://nightcafe.studio>

22. Logo AI

Creates professional logos and brand kits from company info.

Link: <https://logoai.com>

4. Generative AI Video

23. Lumen5

Converts text into videos with automated visuals and music.

Link: <https://lumen5.com>

24. Runway ML

AI-powered video editing, animation, and effects.

Link: <https://runwayml.com>

25. Synthesia

Creates videos with AI avatars speaking scripts.

Link: <https://www.synthesia.io>

26. Pictory

Summarises videos into short highlight reels.

Co-funded by
the European Union

Youth for
Equality

Link: <https://pictory.ai>

27. Veed.io

Online AI video editor with captions and effects.

Link: <https://www.veed.io>

28. HeyGen

Generates videos with avatars and voiceovers.

Link: <https://www.heygen.com>

29. D-ID

Creates talking avatars from images and audio.

Link: <https://www.d-id.com>

30. Renderforest

All-in-one branding platform offering AI-assisted video creation, logo design, and website building. Useful for youth organisations to quickly produce promotional videos, animations, and branded visuals for events and campaigns.

Link: <https://www.renderforest.com>

Youth for
Equality

55. StreamYard

Web-based live streaming studio for events.

Link: <https://streamyard.com>

8. Education & Gamification AI

56. Twine

Open-source tool for creating interactive stories and games.

Link: <https://twinery.org>

57. AI Dungeon

AI-generated interactive storytelling game.

Link: <https://play.aidungeon.io>

58. Classcraft

Gamifies learning with quests and rewards.

Link: <https://www.classcraft.com>

59. SkillLab

Skills mapping for career planning.

Link: <https://www.skilllab.io>

60. Pymetrics

Soft skills assessment through neuroscience games.

Link: <https://www.pymetrics.com>

61. IdeaBuddy

Business idea development platform with AI guidance.

Link: <https://ideabuddy.com>

Co-funded by
the European Union

Youth for
Equality

62. Bizplan Builder

Business planning with AI-assisted templates.

Link: <https://www.jian.com/bizplanbuilder>

63. Genially

Interactive presentations, games, and educational content.

Link: <https://genial.ly>

64. Storyboard That

Storyboard and comic creation for education.

Link: <https://www.storyboardthat.com>

9. Career Exploration & Job Matching AI

65. MyNextMove AI

Career exploration tool linked to O*NET.

Link: <https://www.mynextmove.org>

66. TALENT.AI

Matches multilingual youth to hidden job opportunities.

Link: <https://talent.ai>

67. JobAI

Finds remote and flexible jobs based on skills.

Link: <https://jobai.com>

68. CareerExplorer

Career matching via psychometrics.

Link: <https://www.careerexplorer.com>

Co-funded by
the European Union

Youth for
Equality

69. Labor Market Insights by Lightcast

Labour market analytics for in-demand skills.

Link: <https://lightcast.io>

70. Jobscan

Optimises CVs for applicant tracking systems.

Link: <https://www.jobscan.co>

Youth for
Equality

76. Milo AI

Speech therapy and emotional support assistant for children.

Link: <https://milo.ai>

77. Calm AI Recommendations

Personalised meditation content suggestions.

Link: <https://www.calm.com>

78. Headspace AI

Mindfulness and meditation adapted to user needs.

Link: <https://www.headspace.com>

79. InnerHour

AI-guided self-care programmes with CBT exercises.

Link: <https://www.theinnerhour.com>

80. IBM Watson Personality Insights

Analyses text for personality traits and values.

Link: <https://www.ibm.com/watson>

81. Corti

Detects stress and urgency in voice calls.

Link: <https://corti.ai>

82. Ellipsis Health

Voice-based mental health screening.

Link: <https://www.ellipsishealth.com>

Co-funded by
the European Union

Youth for
Equality

11. Climate & Sustainability AI

83. Earth Hero AI

Personalised sustainability tips and tracking.

Link: <https://www.earthhero.org>

84. ClimateMind

Tailors climate education to users' values.

Link: <https://climatemind.org>

85. Google Earth Engine

Geospatial data and imagery analysis.

Link: <https://earthengine.google.com>

86. DataKind Tools

Data science for social impact projects.

Link: <https://www.datakind.org>

87. Zooniverse

Citizen science platform for public participation in research.

Link: <https://www.zooniverse.org>

88. GiveDirectly AI Allocation

Optimises humanitarian aid distribution.

Link: <https://www.givedirectly.org>

89. Urbio

AI for sustainable city planning.

Link: <https://urb.io>

Co-funded by
the European Union

Youth for
Equality

90. CleanRobotics TrashBot

AI waste sorting machine.

Link: <https://cleanrobotics.com>

91. Senseware

Environmental monitoring with IoT.

Link: <https://senseware.co>

12. Data Science & Visualisation AI

92. Flourish

Interactive data visualisation platform.

Link: <https://flourish.studio>

93. Tableau Public

Data visualisation and publishing platform.

Link: <https://public.tableau.com>

13. Leadership, Coaching & Simulation AI

94. Simformer

Virtual business simulation platform.

Link: <https://simformer.com>

95. Prendo Simulations

Leadership and negotiation simulations.

Link: <https://www.prendo.com>

96. CoachHub

AI-powered coach matching platform.

Co-funded by
the European Union

Youth for
Equality

Link: <https://www.coachhub.com>

97. Mentorloop
